

12679 - Emission of semen without pleasure

the question

I suffer from emission of semen during the day in Ramadaan whilst fasting, without any wet dream or masturbation. Does this have any effect on my fasting?.

Detailed answer

Praise be to Allah.

If the matter is as described, then emission of semen without any feelings of pleasure on your part during the day in Ramadaan does not have any effect on your fasting, and you do not have to make up those days.

And Allaah is the Source of strength. May Allaah send blessings and peace upon our Prophet Muhammad and his family and companions.
