8866 - Is it makrooh to have intercourse facing the direction of the qiblah?

the question

Is it makrooh to have intercourse facing the direction of the qiblah either out of doors or indoors? Are there any differences of opinion among the scholars concerning this matter?

Detailed answer

Praise be to Allah.

That is not makrooh, either out of doors or indoors. This is the view of al-Shaafa'i and all the scholars, except for some of the companions of Maalik. And Allaah knows best.
