106460 - Taking lots of baths when fasting

the question

What is the ruling on taking a bath more than one time during the day in Ramadaan, or sitting beside an air conditioner that spreads wetness?.

Detailed answer

Praise be to Allah.

That is permissible and there is nothing wrong with it. The Messenger (peace and blessings of Allaah be upon him) used to pour water on his head because of heat or thirst when he was fasting, and Ibn ‘Umar used to wet his clothes with water when he was fasting, to reduce the severity of heat or thirst. Dampness or wetness does not affect the fast because it is not water that reaches the stomach. End quote.

Shaykh Muhammad ibn ‘Uthaymeen (may Allaah have mercy on him).
