

48489 - Her husband is weak - can she put medicine in his food without him knowing?

the question

I am a woman who needs intimacy with my husband, but my husband is weak in this regard. I have tried to convince him to get treatment but with no success. Can I put medicine to strengthen his desire in his food without him knowing?.

Detailed answer

Praise be to Allah.

I asked our Shaykh ‘Abd al-Rahmaan al-Baraak about this and he replied:

She should not do that. If she cannot put up with it she may ask for a divorce.
